EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Warren Williams on November 12, 2004.

2. The application has been amended as follows:

In the Claims

Claim 1, line 15, "while continuing" has been changed to the following:
--relative to said web feeder assembly while said holder continues--.

In the Specification

Page 1, line 6, -- , now abandoned, -- has been inserted before "which";
line 7, -- now abandoned, -- has been inserted before "both".

Remarks

3. The above change to the claims was made to further clarify the claimed invention, particularly with respect to 35 USC 112.

Restriction Requirement

4. Due to the allowability of claim 1, the restriction requirement (see paper no. 5) has been **withdrawn**.

Additional Prior Art

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The newly-cited prior art disclose inventions which have features similar to the claimed invention. However, these inventions, each taken alone or in combination with the prior art of record, do not teach or fairly suggest the claimed invention.

REASONS FOR ALLOWANCE

6. The following is an examiner's statement of reasons for allowance:

The prior art of record, either taken alone or in combination, does not teach or fairly suggest the claimed invention. For example, the prior art of record does not teach the combination of a processing station including web processing components as claimed; a web feeder assembly as claimed; a holder at the processing station as claimed, the holder being movable relative to said web feeder assembly as claimed; and a mechanism operably coupled to the holder for selectively moving the holder as claimed, the mechanism including adjustment controlled structure as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Clark F. Dexter whose telephone number is (703)308-1404. The examiner can be reached Monday through Friday during normal business hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allan N. Shoap can be reached on (703)308-1082. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
